GRAPHIC AND DIGITAL DESIGNER
LONDON
FINBAR@FINBAR.STUDIO
UPDATED OCTOBER 2026

FINBAR SKITINI

I’m Finbar, a designer from London with a broad set of skills. I have worked on a lot of different kinds of project across print, screen and motion: brand identities, long brochures and playbooks, social campaigns, event graphics and websites.

I build websites as well as design them, with working HTML and CSS, and I use AI tools every day and keep up with where they are going. I’m as comfortable holding a fifty-page brochure to a tight brief as I am with a loose one that needs an idea. A design generalist role is where I would be most useful to a team.

ELIGIBILITY

British citizen, based in London. Open to studio, in-house and hybrid roles.

LOLA AUDIO
LOGO AND WEBSITE

Lola Stoodley is a composer and sound designer, so her site plays like her work. Faders mix the music as you move them, scrolling back rewinds the track, and her name draws itself in pen. Each showreel opens in a full-screen player you can scrub frame by frame.

RENNEN PLUS
WEBSITE

Rennen Plus sells performance parts from five brands, and its range was spread across supplier sites, an old Shopify store and a quoting spreadsheet. I designed one catalogue where the car comes first: pick your car, see only the parts that fit it, and get a landed Australian price that changes as you choose options. 228 cars and about 2,500 parts, live in five and a half weeks for the Porsche Club of Queensland Concours.

PLATED WITH ISSY
BRAND AND WEBSITE

Plated with Issy is a candlelit supper club run by Issy Park. The identity sets a flowing script against a sharp serif on deep olive, so it feels like the table itself. The site carries her photography, a polaroid gallery she orders herself and her Instagram, and it went live in under a week.

LOWS DESIGN + BUILD BRAND AND WEBSITE

Lows is a family-run building company in South London. I refined their mark from the client's own sketches, then designed a website led by the work: big photography, project pages, an estimate tool that turns a visitor into a named lead, and a CMS the team updates themselves. The launch came with a pack of posts for Instagram, LinkedIn and X.

THE MOMENT YOU REALISE SOCIAL CAMPAIGN FOR SHARE TO BUY

The Moment You Realise was a campaign for Share to Buy, the UK's largest affordable homeownership platform. I made more than thirty motion and still assets in two styles and cut every one for feed, Stories, Reels and LinkedIn. New registrants were up 19.7 percent on the year before.

TASWATER
INFORMATION DESIGN

TasWater runs water and sewerage for the whole of Tasmania. I designed two large graphics for them in a month, made to sit inside their interactive eLearning software: one of the whole water network, one of a new starter's first year. Both are strictly on brand and were signed off by their leadership.

THE LONDON HOME SHOW EVENT

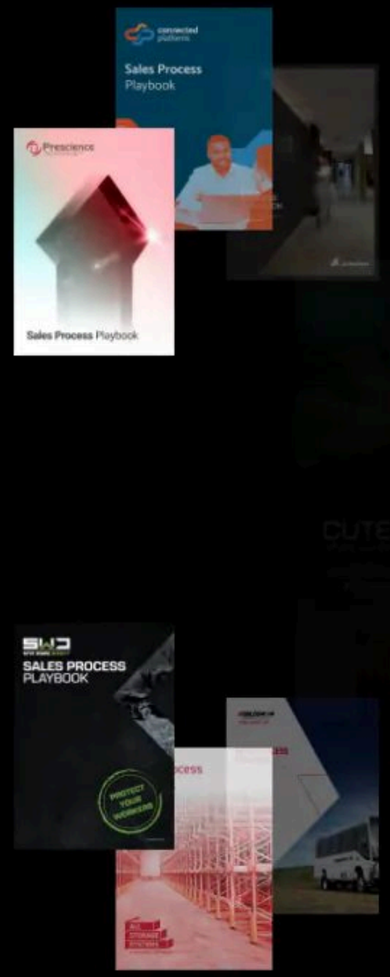

The London Home Show is the UK’s first affordable homes exhibition, with more than 4,000 visitors. I designed the show’s print and digital: flags and wayfinding, stage graphics, brochures, booklets and tickets, Metro newspaper ads, and the email campaign that drove record ticket sales.
