GRAPHIC AND DIGITAL DESIGNER
LONDON

FINBAR@FINBAR.STUDIO
UPDATED OCTOBER 2026

FINBAR SKITINI

I’m Finbar, a designer from London with a broad set of skills. I have worked on a lot of different kinds of project across print, screen and motion: brand identities, long brochures and playbooks, social campaigns, event graphics and websites.

I build websites as well as design them, with working HTML and CSS, and I use AI tools every day and keep up with where they are going. I’m as comfortable holding a fifty-page brochure to a tight brief as I am with a loose one that needs an idea. A design generalist role is where I would be most useful to a team.

ELIGIBILITY

British citizen, based in London. Open to studio, in-house and hybrid roles.

02 Rennen Plus — WEBSITE

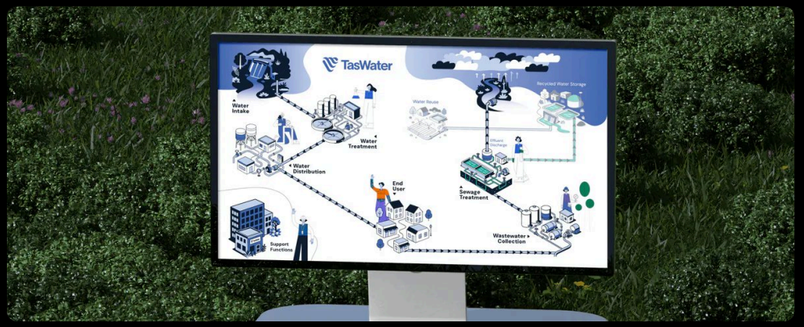

03 Plated with Issy — BRAND AND WEBSITE

04 Lows Design + Build — BRAND AND WEBSITE

05 The Moment You Realise — SOCIAL CAMPAIGN FOR SHARE TO BUY

06 TasWater — INFORMATION DESIGN

07 The London Home Show — EVENT

08 Other — PLAYBOOKS, PRINT AND COVERS

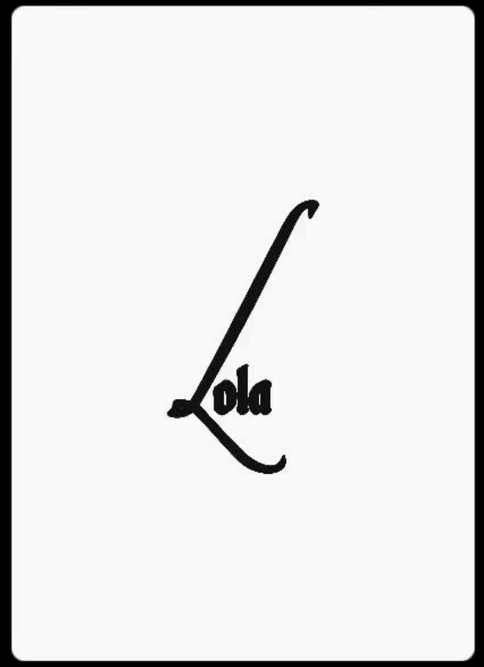

LOLA AUDIO
LOGO AND WEBSITE

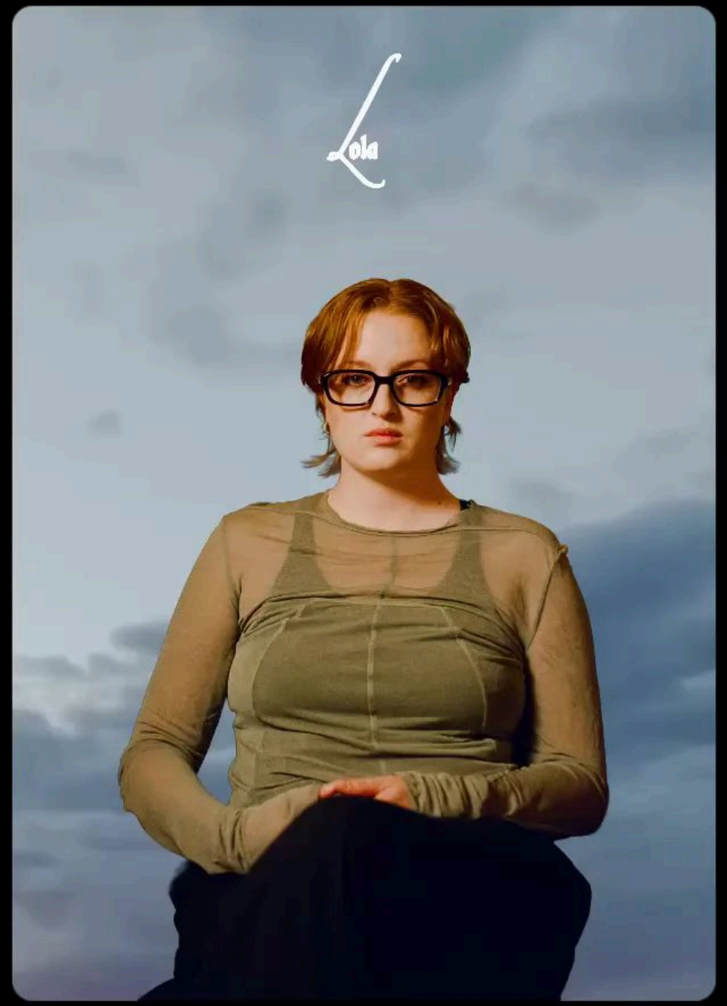

Lola Stoodley is a composer and sound designer, so her site plays like her work. Faders mix the music as you move them, scrolling back rewinds the track, and her name draws itself in pen. Each showreel opens in a full-screen player you can scrub frame by frame.

The site page by page: the opening sheet, a showreel in the full-screen player, her bio and the work

The website. It has sound, which is off until you turn it on

RENNEN PLUS
WEBSITE

Rennen Plus sells performance parts from five brands, and its range was spread across supplier sites, an old Shopify store and a quoting spreadsheet. I designed one catalogue where the car comes first: pick your car, see only the parts that fit it, and get a landed Australian price that changes as you choose options. 228 cars and about 2,500 parts, live in five and a half weeks for the Porsche Club of Queensland Concours.

The homepage

Every car on the site, each one cut out, faced the same way and sat on one baseline

Designed mobile first, because the visitor stats showed most people browse on a phone: a car page, search and the AI concierge

PLATED WITH ISSY
BRAND AND WEBSITE

Plated with Issy is a candlelit supper club run by Issy Park. The identity sets a flowing script against a sharp serif on deep olive, so it feels like the table itself. The site carries her photography, a polaroid gallery she orders herself and her Instagram, and it went live in under a week.

Every polaroid from the supper club. Drag to spin it

LOWS DESIGN + BUILD BRAND AND WEBSITE

Lows is a family-run building company in South London. I refined their mark from the client's own sketches, then designed a website led by the work: big photography, project pages, an estimate tool that turns a visitor into a named lead, and a CMS the team updates themselves. The launch came with a pack of posts for Instagram, LinkedIn and X.

“He has completely transformed our online presence and taken it to the next level.”

SAMUEL LOW

THE MOMENT YOU REALISE SOCIAL CAMPAIGN FOR SHARE TO BUY

The Moment You Realise was a campaign for Share to Buy, the UK's largest affordable homeownership platform. I made more than thirty motion and still assets in two styles and cut every one for feed, Stories, Reels and LinkedIn. New registrants were up 19.7 percent on the year before.

The reels on Instagram

The feed posts, one for each moment in the campaign

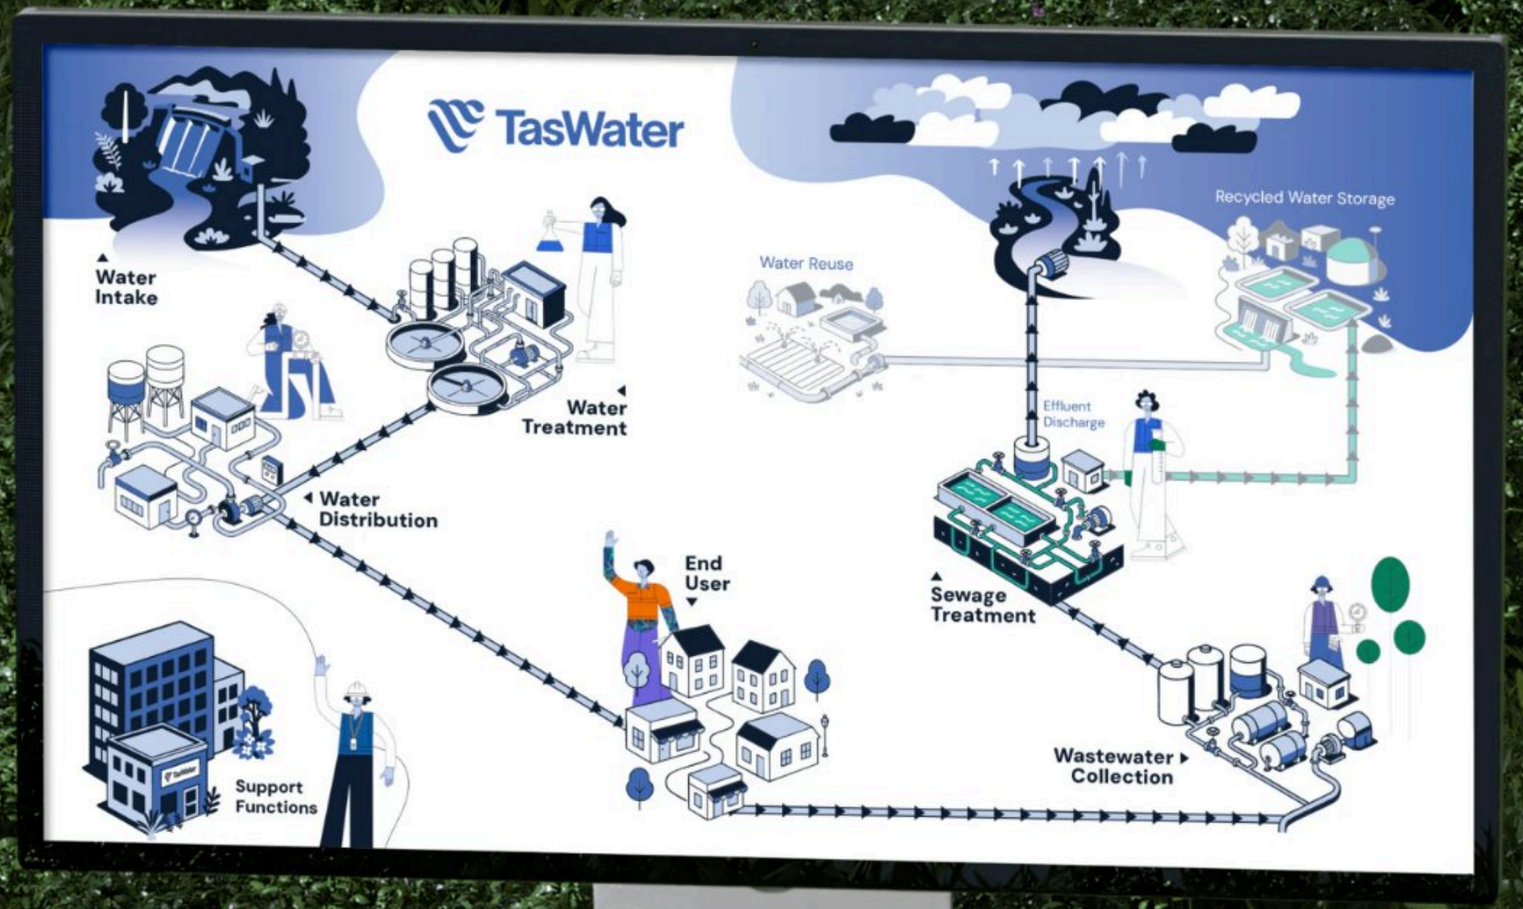

A feed post and its end card

TASWATER
INFORMATION DESIGN

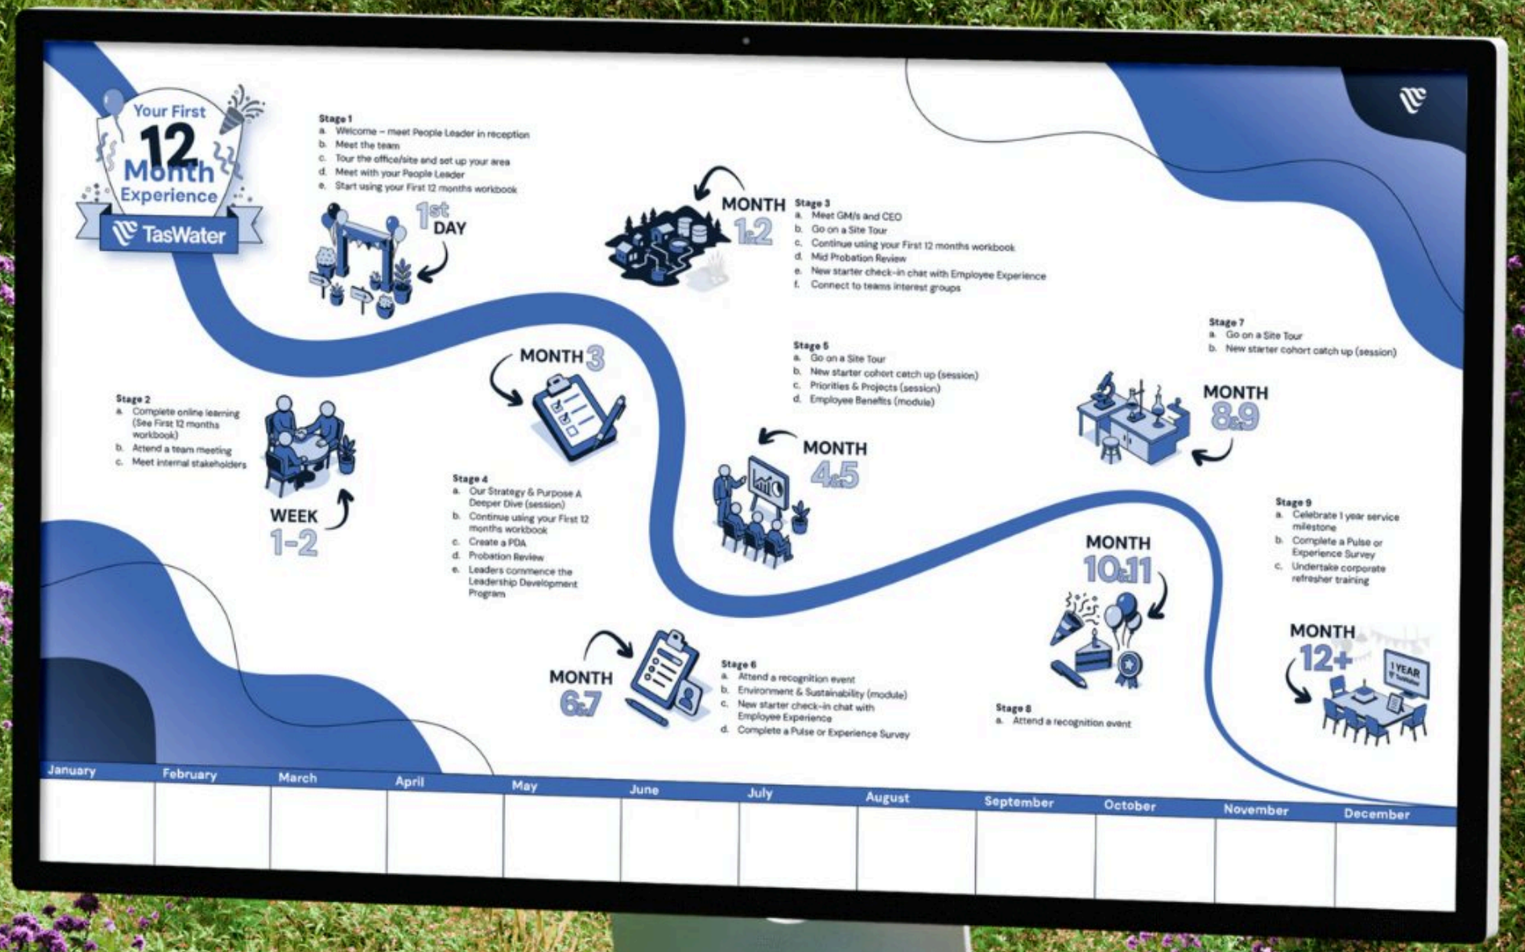

TasWater runs water and sewerage for the whole of Tasmania. I designed two large graphics for them in a month, made to sit inside their interactive eLearning software: one of the whole water network, one of a new starter's first year. Both are strictly on brand and were signed off by their leadership.

The network graphic for the eLearning: water from intake and treatment to the tap, then back through sewage and wastewater

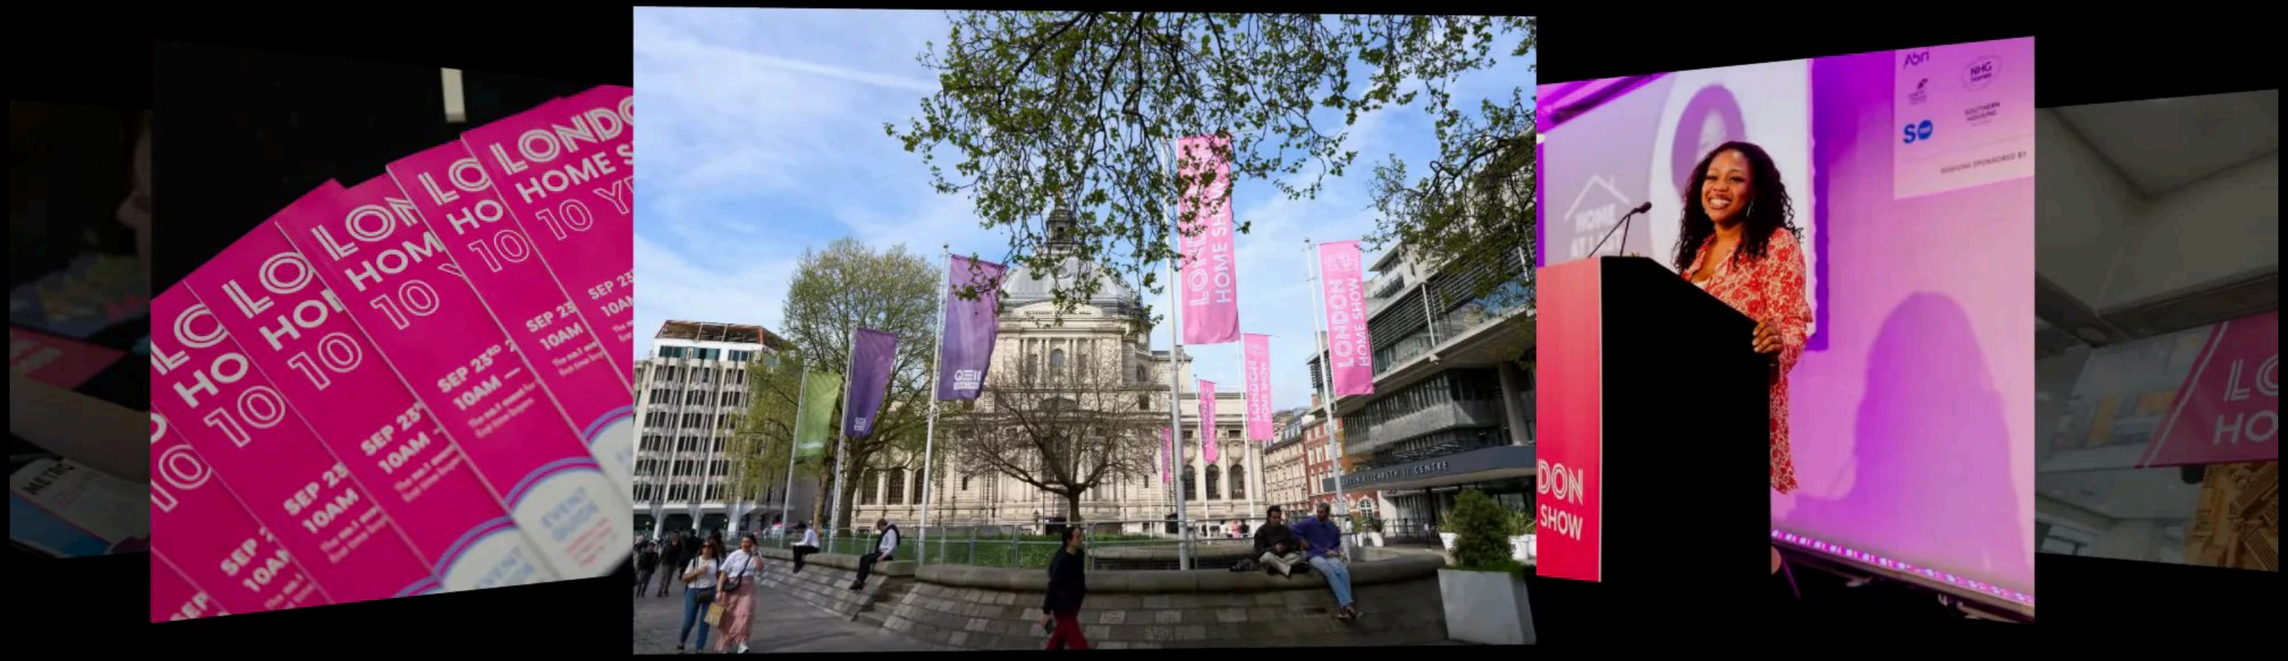

The onboarding graphic for the eLearning: a new starter's first twelve months, from day one to month twelve

THE LONDON HOME SHOW EVENT

The London Home Show is the UK’s first affordable homes exhibition, with more than 4,000 visitors. I designed the show’s print and digital: flags and wayfinding, stage graphics, brochures, booklets and tickets, Metro newspaper ads, and the email campaign that drove record ticket sales.
